

VPA'S FUNDING FOR SKILL DEVELOPMENT, EMPOWERING UNEMPLOYED YOUTH AND WOMEN IN TECHNICAL ROLES APPLAUDED

In a commendable move towards fostering skill development and empowering marginalized sections of society, the Visakhapatnam Port Authority (VPA) has garnered praise from both print and electronic media for its recent funding initiative. The program, aimed at training unemployed youth, particularly focusing on women, in various technical roles, has been executed by the Center of Excellence in Maritime & Shipbuilding (CEMS), Visakhapatnam.

The initiative, lauded under the hashtags #LaudedOnVPAFunding and #SkillDevelopment, underscores VPA's commitment to creating avenues for socio-economic upliftment through skill enhancement. By targeting unemployed youth and specifically emphasizing the inclusion of women in traditionally male-dominated technical fields, VPA aims to bridge the gap in gender representation while equipping individuals with valuable skills for the workforce.

The media's recognition of VPA's efforts highlights the importance of investing in skill development initiatives, particularly in regions where unemployment rates are high and access to quality training is limited. Through strategic partnerships with organizations like CEMS, VPA demonstrates its dedication to catalyzing positive change and fostering inclusive growth within the community.

As the program unfolds, stakeholders eagerly anticipate the impact it will have on empowering unemployed youth and women, ultimately contributing to a more skilled and diverse workforce in Visakhapatnam and beyond.
